

SASH Team Update

Timely and Accurate Communication Enables Seamless Care Transitions

- PatientPing is on its way. We expect all of you to be live and using PatientPing to know about the transitions in and out of hospitals, skilled nursing and home health (in some locations) the week of January 23rd. We are really excited about this new capability for improved care coordination and communication.
- If you missed any of the preliminary trainings on PatientPing in December, please click on the link below to watch a short training. Keep an eye on your inbox for more information the week of January 23rd.

SASH Flash Grab 'n' Go

It's Never Too Late to Start Exercising

Exercise can ward off chronic disease and help you maintain your independence and mobility. But the older we get in the United States, the less active we are, according to a recent study published in the CDC's Morbidity and Mortality Weekly Report.

Holiday Weight Gain; a Worldwide Phenomenon

The holidays that we celebrate may vary among countries, but many share one feature - eating more of certain foods. An international team of researchers decided to see if holiday indulgences were routinely associated with weight gain.

The Alinker Mobility Device

Check out this "walker" that allows you to actually be mobile and upright under your own power. It is a walking-bike without pedals.

Wellness Nurse Corner

SASH Hypertension Prevention Initiative Presentation

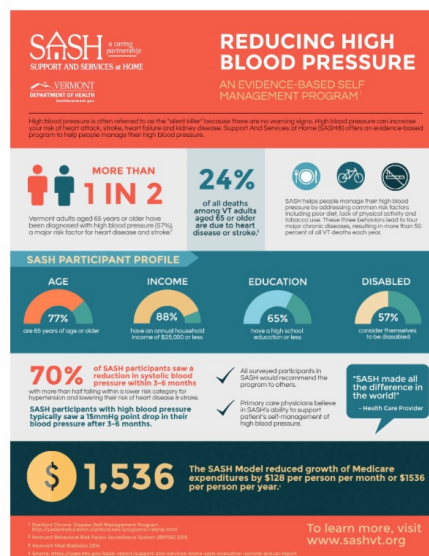

I am excited to share with everyone that in November I was flown to Atlanta, GA by the Centers for Disease Control (CDC) to present on our amazing Hypertension work. The audience included CDC officials and Department of Health staff from states all around the country, including Alaska who was on the same panel as us.

People were so impressed with the incredible work that you are all doing every day in SASH Vermont!
